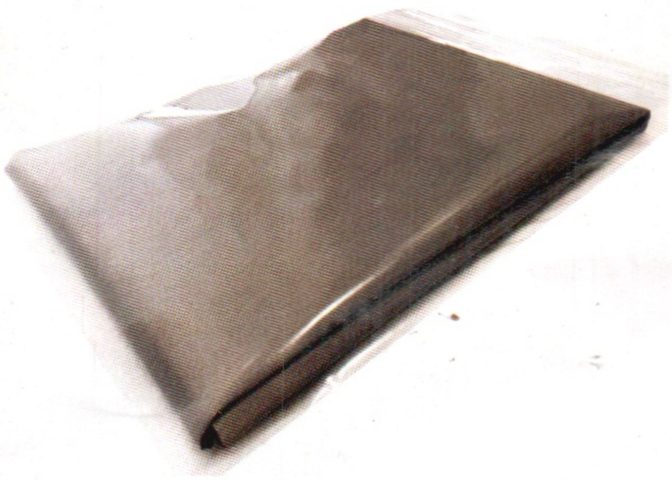
EMF SHIELDING FABRIC

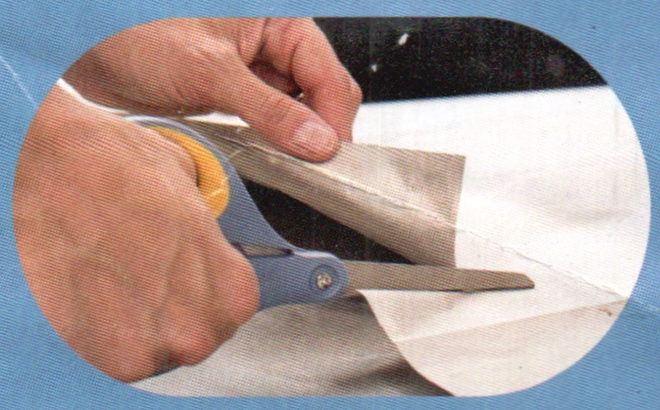


EMI shielding & RFI shielding

EMF/RF Ehielding Fabric is used for making faraday bags, RF enclosures, EMF deflection, and signalproof rooms or tents. High-shielding nickel and copper composition blocks WiFi (2.4 & 5GHz), Bluetooth, cell signals (4G LTE+), GPS, RFID, and radio signals with 40-100dB shielding rating from 10Mhz to 5Ghz.

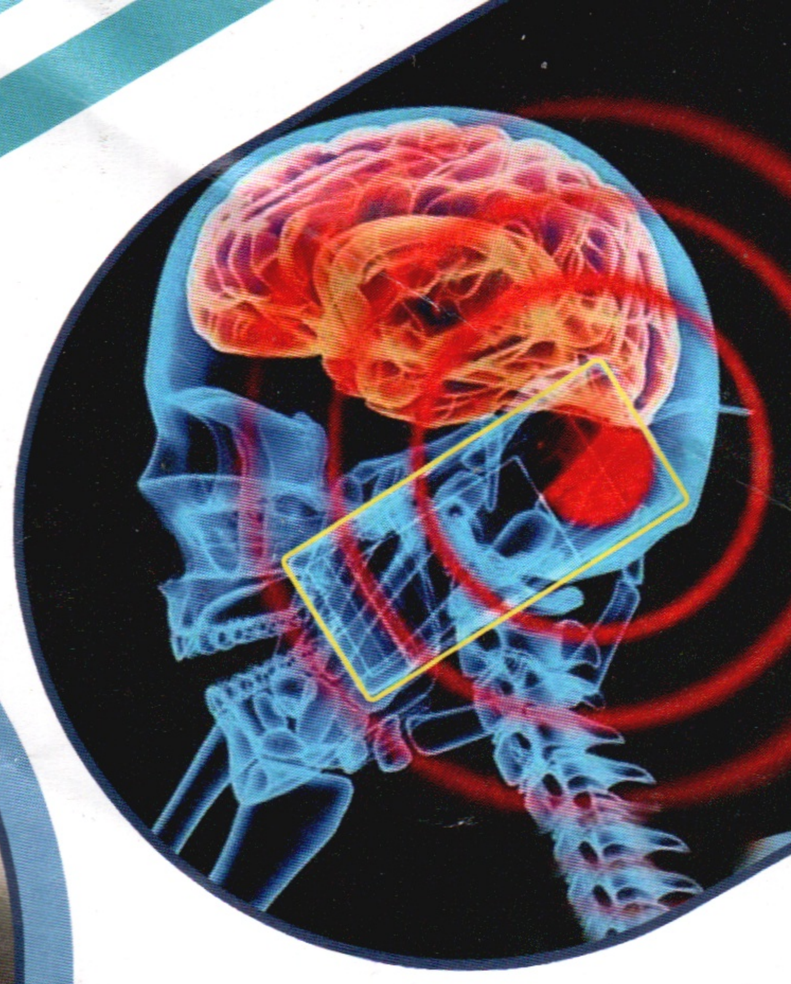
DIY CUT

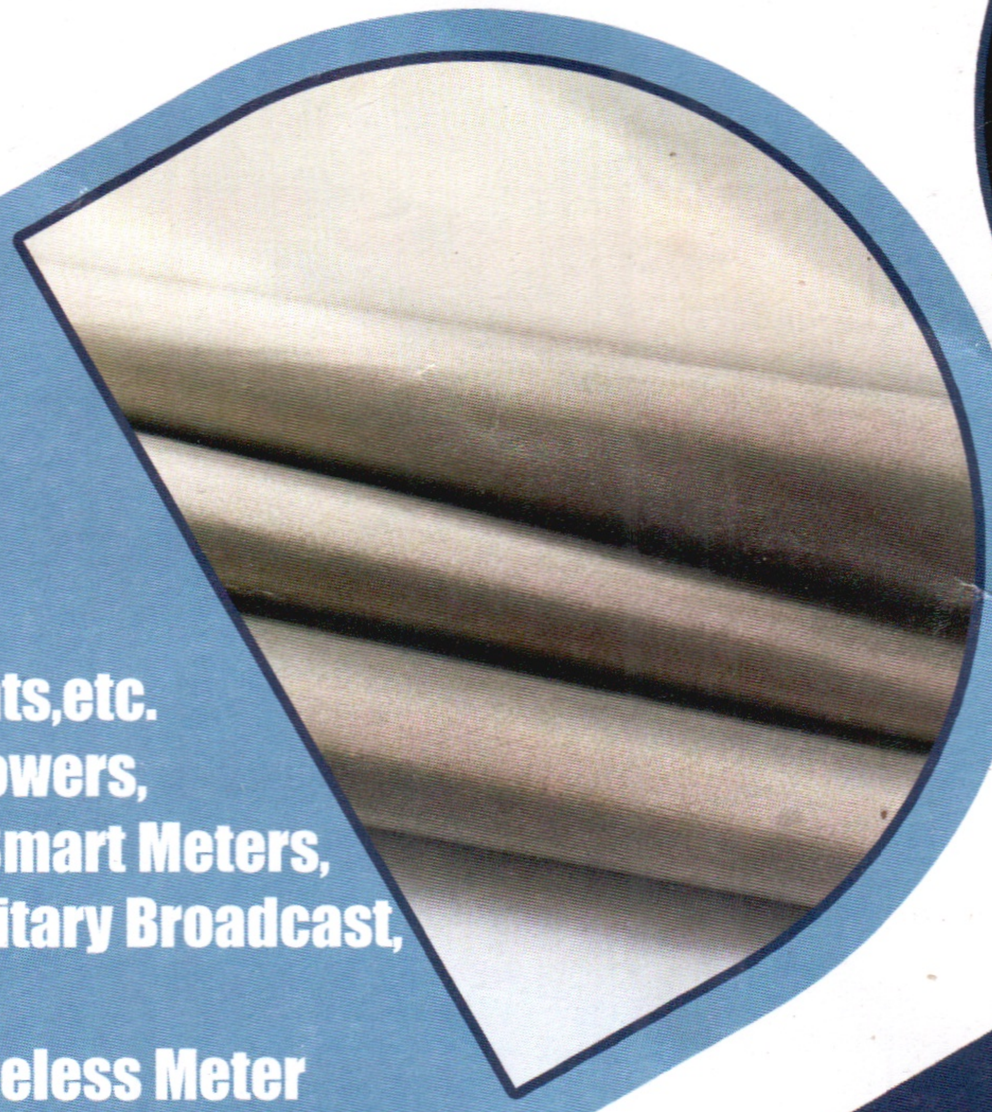
It can be cut, sewn, and taped like standard fabric to create DIY RF signal shielding enclosures.



100 % SATISFACTION GARANTEED!
If we can help you in any way please let us know
info@newmeil.com

Highly Electrically Conductive
RF/EMI/EMF/LF Blocking
Super Earthing Grounding Fabric
Anti-electrostatic ESD





Usage for Bags, Curtains,Tents,etc.
Effective Shielding for CellTowers, Microwave Signals,Phones,Smart Meters, Security Systems, Radar, Military Broadcast, etc and More.
Making Anti-static Cloth, Wireless Meter Shielding, E-textiles, Shielding Curtain.

Very easy to cut and sew

High-shielding Conductive Fabric for Blocking RF Signals Such as Cell, Bluetooth, WiFi, GPS. As an insert in the Wallet or Handbag to [illegible] Your Credit Cards from Data Theft.

EMF shielding fabric is a Nickel Copper blend that prevents most wifi, cell signal. and radiation from going through. The only way to eliminate it is to completely wrap yourself or the device, but if you lay it underneath your laptop or around the front of your computer tower you can redirect the radiation away from you.

Surface Resistance:
Below 0.03 ohm , Average Attenuation of 40db-80 dB from 30MHz-18GHz.

Material:
copper+nickel+polyester , plain type , silver color, This Creates a Conductive Grid That Corresponds to the Idea of a Faraday Cage.

CROWN JEWELS

GROW

CROWN JEWELS GROW IS YOUR SINGLE SOURCE SOLUTION TO FEEDING PLANTS THROUGHOUT THEIR VEGETATIVE, NON-FLOWERING GROWTH PERIOD. INTENDED FOR USE THROUGH INCORPORATION INTO NEW OR RECYCLED SOIL OR GROWING MEDIUMS AND AS A TOP-DRESS, TO ENCOURAGE VIGOROUS PLANT GROWTH. CREATED IN HUMBOLDT COUNTY WITH LEGACY CULTIVATORS, CERTIFIED CROP CONSULTANTS, AND CERTIFIED SOIL SCIENTISTS.

- OMRI LISTED AND CDFA APPROVED FOR ORGANIC CROP PRODUCTION
- EXCELLENT FOR TREATING AND PREPARING SOILS PRIOR TO PLANTING
- UNIQUE PARTICLE SIZES TO ENCOURAGE EVEN NUTRIENT RELEASE
- GREAT FOR BREWING ACTIVELY AERATED GROW TEAS
- AVAILABLE IN 5LB-10LB-20LB-AND 40LB BAGS OR 1000LB TOTES FOR COMMERCIAL AND FIELD APPLICATIONS.

DERIVED FROM:
CRAB MEAL, NEEM SEED MEAL, ALFALFA MEAL, BASALT, FISH BONE MEAL, GYPSUM, SEABIRD GUANO, EPSOM SALT, KELP MEAL, SULFATE OF POTASH, DOLOMITE

BLOOM

CROWN JEWELS BLOOM IS A 1 PART FEEDING SOLUTION TO YOUR FLOWERING CROP PRODUCTION AND SOIL FERTILIZING NEEDS. DEVELOPED WITH CERTIFIED SOIL SCIENTISTS, CERTIFIED CROP CONSULTANTS, AND LEGACY CULTIVATORS IN HUMBOLDT COUNTY CA. DESIGNED FOR APPLICATION AS A TOP DRESS OR TO BE INCORPORATED INTO YOUR NEW OR RECYCLED SOIL OR GROWING MEDIUM PRIOR TO PLANTING.

-OMRI LISTED AND CDFA APPROVED FOR ORGANIC CROP PRODUCTION.
-A UNIQUE COMBINATION OF UNIQUE AND TRADITIONAL FERTILIZING INGREDIENTS
-MICRONIZED INGREDIENTS FOR BALANCED RELEASE OF ESSENTIAL NUTRIENTS
-EXCELLENT FOR BREWING ACTIVELY AERATED BLOOM TEAS
- AVAILABLE IN 5LB-10LB-20LB-AND 40LB BAGS OR 1000LB TOTES FOR COMMERCIAL AND FIELD APPLICATIONS.

DERIVED FROM:
SEABIRD GUANO, ROCK PHOSPHATE, GYPSUM, ALFALFA MEAL, BASALT, KELP MEAL, NEEM SEED MEAL, SHRIMP MEAL, EPSOM SALT, SULFATE OF POTASH, DOLOMITE

SOIL KING
BIG ROOTZ

DESIGNED BY GROWERS FOR GROWERS.™

@THESOILKING

Big Rootz is our all purpose soil blend and is considered a super soil; it has all the nutrients and inputs needed to allow the plant to maintain its healthiness throughout its vegetative life and into bloom given the proper volume of soil for the duration of vegetative growth. Our main blend was carefully designed with many years of beta testing in greenhouses, indoor environments, and outdoor grows. Our soils always go through rigorous R&D prior to release.

Our top priority is to ensure any soil we design and produce is safe and clean. We test for pesticides, heavy metals, and GMO's to ensure there are no inconsistencies in our product.

We also carefully select inputs from all over the world to ensure we meet our high quality Soil King approved standards. With proper care for the soil, Big Rootz can be used year after year making it not only the more cost effective option, but the more environmentally sustainable and responsible solution as well.

Three things are key when understanding your soil medium. Does it provide proper food, water, and oxygen to the plants? While most people find the first two simple enough, oxygen is one of the most important keys to good soil health and is often overlooked. In order for an annual plant to maximize its potential, it needs an abundance of oxygen which it intakes through the roots. Without proper aeration, your annuals will struggle to breath and never reach their full potential. Big Rootz allows for all three of those vital components to exist.

Soil King only selects the highest quality inputs for any mixed design. Big Rootz also has a whole host of mycorrhizal spores which provide the base for a strong symbiotic relationship between the plant and the soil. These input ingredients, along with high quality compost and earthworm castings allow for a large amount of biology count to activate the living soil.

We take pride in putting on every bag that it was "Designed By Growers For Growers" and with decades of cultivation experience under our belts, we only strive for the best!
